Workforce Trends Multimedia is the field of the future and is rapidly growing. Because our global economy is driven by technology, multimedia has become one of the most in-demand fields around. With nearly 75% of Americans using the Internet and over 85 million domains registered worldwide, the demand for individuals skilled in interactive media is high. Get the Facts Multimedia programs combine art and technology to present text, images and sound in digital form.		Core Curriculum and elective requirements may vary district to district. Check with your school counselor. Concurrent enrollment course offerings vary by school and district. Foundation courses taken beyond the required credits can be used as elective credit.			Course #	Foundation Courses: (required)	Credit	2.00 credits
